

## GOOD AT GETTING UP (TO NO GOOD)

(female vocal version)

I've always taken life  
With a grain of salt  
Slice of lime and tequila  
I've always thought  
That having fun  
Was a better idea

I've never hurt nobody  
Never done nobody wrong  
Just having me a good time  
Ya wanna come along

(Chorus)

I'm good at getting up  
To getting down to no good  
So good at getting up  
To getting down to no good  
Good at getting up to no good

Some people say  
I've got to slow down  
I'm on the road to ruin  
But when I squeeze into my jeans  
There ain't no doubt  
I know just what I'm doin'

I know a rockin roadhouse  
That plays them good old songs  
It's gonna be a party  
Why don't you come along

(Chorus)

Bridge:  
Don't waste my time  
Thinking about  
What other folks are gonna think and gonna say  
Cause in the end  
It comes right down  
To how I live and if I like it that way

Chorus/Out
