

GOOD AT GETTING UP (TO NO GOOD)

(male vocal version)

I've always taken life
With a grain of salt
Slice of lime and tequila
I've always thought
That having fun
Was a better idea

I've never hurt nobody
Never done nobody wrong
Just having me a good time
Ya wanna come along

(Chorus)

I'm good at getting up
To getting down to no good
So good at getting up
To getting down to no good
Good at getting up to no good

Some people say
I've got to slow down
I'm on the road to ruin
I say I'm crazy like a rodeo clown
I know just what I'm doin'

I know a rockin roadhouse
That plays them good old songs
It's gonna be a party
Why don't you come along

(Chorus)

Bridge:
Don't waste my time
Thinking about
What other folks are gonna think and gonna say
Cause in the end
It comes right down
To how I live and if I like it that way
