

IF YOU WERE HERE

(female vocal version)

The radio comes on
It wakes me from a dream
Of things the way they were
But in reality
It's just another day
Wishing you were here

I reach across our bed
And touch the empty space
Imagining the scent of you
On your pillowcase
Another lonely day
Wishing you were here

CHORUS

If you were here
I wouldn't feel so empty
If you were here
I wouldn't be so lost
If you were here
She'd be the one that's missin you
And this house would be a home
If you were here

I run into our friends
They ask if I'm OK
I tell them, sure, I'm doing fine
What I really want to say
It's just another day
Wishing you were here

I try to dial the phone
But my fingers won't stay still
I just can't catch my breath
And I wonder if I will
Another lonely day
Wishing you were here

CHORUS

BRIDGE

What happened to the love that felt so right?
What happened to the flame that burned so bright?
I know I should move on, but it's more than I can bear
Cause even when I close my eyes I see you there
