

## IF YOU WERE HERE

(male vocal version)

The radio comes on  
It wakes me from a dream  
Of things the way they were  
But in reality  
It's just another day  
Wishing you were here

I reach across our bed  
And touch the empty space  
Imagining the scent of you  
On your pillowcase  
Another lonely day  
Wishing you were here

### CHORUS

If you were here  
I wouldn't feel so empty  
If you were here  
I wouldn't be so lost  
If you were here  
She'd be the one that's missin you  
And this house would be a home  
If you were here

I drive my where you work  
I see the brand new car  
I never could have given you  
And I wonder how you are

I try to dial the phone  
But my fingers won't stay still  
I just can't catch my breath  
And I wonder if I will  
Another lonely day  
Wishing you were here

### CHORUS

### BRIDGE

What happened to the love that felt so right?  
What happened to the flame that burned so bright?  
I know I should move on, but it's more than I can bear  
Cause even when I close my eyes I see you there

(Words & Music by: SJ Adams and G Reynolds)
