

## The End of Me

(V1)

I know it by the way  
She's standing in the door  
It's right there in her pretty eyes  
Oh I've seen that look before  
She don't want to say the words  
But any fool could see  
She's at the end of me

(Chorus)

At the end of I'm trying  
Broken promises and fightin'  
Through with what I'm gonna do  
One of these days  
At the end of pretending  
That there'll be a happy ending  
On the edge of being free  
She's at the end of me

(V2)

Oh I know the best thing  
That I could do for her  
Is say spread your wings and fly away  
To the life that you deserve  
Well stubborn hearts are slow to learn  
And mine just can't believe  
She's at the end of me

(Chorus)

(Bridge)

I'd tell her I'll do better  
But she knows that I won't  
There's nothing I could say  
Would make a difference, so I don't  
Cause she's heard all my stories  
And she knows my song and dance  
Still I keep on prayin'  
For one more second chance

(Chorus)
